Subject: Fw: Proposed Monthly Meeting next Thursday in Sacramento

Hi John,

I am not aware of any formal agenda for the 10am with Teresa Marks. She is a recent addition to EPA Administrator McCarthy's senior team and her focus is unconventional oil and gas development. She is visiting a number of key oil and gas states and CA happens to be her first.

For the 11am meeting, EPA proposed the following agenda.

- Review of EPA March 9 letter
- Draft State Guidance
- Emergency Rulemaking Status
- . Update on State actions dealing with sub 3,000 TDS formations (recent orders, etc)

The 1pm slot was scheduled to discuss ground water monitoring related to proposed state legislation for the UIC program.

See you tomorrow.

David
